

POST- EVENT REPORT

Event: Murder Mystery Game 2.0 (in MEDNOVA 2.0)

Date: 26th April 2025

The Murder Mystery Game 2.0 was organised by the department of Forensic medicine of MMCH & RC, Calicut as a part of the Academic fest for students- MEDNOVA 2.0. It was held on 26th April 2025 as an exciting and interactive event based on Crime Scene Investigation (CSI). The main aim was to make learning about forensic science ore interesting and fun filled.

A total of 7 teams participated in the competition. Each team investigated the mock crime scene by collecting clues, analysing evidence, and connecting facts to solve the mystery. The activity encouraged students to use observation skills, logical thinking, and teamwork.

The event was not only fun and entertaining but also very informative, as it gave participants a basic idea of how real-life investigations are carried out. A token of appreciation was given to all the teams. The participant teams enjoyed the suspense and creativity shown by the organising team in planning the game and gave very positive feedback.

Conclusion:

The program was a great success. It helped students learn important aspects of forensic medicine and forensic science in a simple, engaging, and enjoyable way, proving that education can be both informative and entertaining.
