Venue: Emerald Hall, Malabar Medical College
Organised by: Medical Education Unit (MEU), Malabar Medical College
Resource Person: Dr. Pranav V. Nair, Assistant Professor, Department of Psychiatry
Target Audience: All Mentors and Faculty Members of Malabar Medical College
Number of Participants: 46 Faculty Members

Introduction

The Medical Education Unit (MEU), Malabar Medical College, organised a Faculty Development Programme (FDP) for all mentors and faculty members of the institution on 10th September 2026 at Emerald Hall. The programme was conducted from 2:00 PM to 3:00 PM with the objective of strengthening the professional competencies of faculty members and enhancing their effectiveness in academic responsibilities, mentoring and student support.

Faculty development programmes play a vital role in improving the quality of medical education by providing opportunities for teachers to update their knowledge, develop professional skills and adopt effective approaches to teaching and mentoring. The programme was organised as part of the institution's ongoing efforts to promote continuous professional development among its teaching faculty.

Resource Person and Session

The session was handled by **Dr. Pranav V. Nair, Assistant Professor, Department of Psychiatry**, who served as the resource person for the programme. His expertise in the field of psychiatry provided an opportunity to address aspects of faculty development relevant to the academic and professional responsibilities of medical teachers.

The session was designed for all mentors and faculty members of the institution, recognising the important role played by teachers in shaping the academic, professional and personal development of medical students.

The programme emphasised the importance of continuous learning and professional development among faculty members. It also highlighted the need for faculty to remain actively engaged in improving their teaching practices and mentoring approaches to create a supportive and effective learning environment for undergraduate medical students.

Participation

A total of **46 faculty members** from Malabar Medical College participated in the programme. The participation of faculty members from different departments reflected the institution's commitment to strengthening faculty development activities and promoting a collaborative academic environment.

The programme provided a common platform for mentors and teachers to participate in an academic development activity and reflect on their responsibilities in medical education.

Outcome of the Programme

The Faculty Development Programme contributed to the ongoing academic development initiatives of the institution. It reinforced the importance of faculty development as an integral component of quality medical education and highlighted the significant contribution of mentors and teachers in ensuring effective student learning and professional growth.

The programme also encouraged faculty members to actively participate in future faculty development initiatives and continuously enhance their competencies in teaching, mentoring and academic responsibilities.

Conclusion

The Faculty Development Programme conducted on 10th September 2026 at Emerald Hall was successfully completed with the participation of 46 faculty members. The session led by Dr. Pranav V. Nair provided an opportunity for faculty members to engage in professional development.

The Medical Education Unit appreciates the contribution of the resource person and the participation of all faculty members. Such programmes will continue to be encouraged as part of the institution's commitment to excellence in medical education and faculty development.
