

RAPID MMC 1.0 – A Postgraduate (PG) Update Program on Emergency Medicine

Introduction:

The Department of Emergency Medicine, Malabar Medical College, Modakkallur, successfully conducted RAPID MMC 1.0 – a Postgraduate (PG) Update Program on Emergency Medicine – on 12th July 2025. The event was designed to foster learning, discussion, and skill development in resuscitation, acute care, protocols, innovation, and development, which are the core tenets of emergency medical practice.

Inauguration:

The program was formally inaugurated by Mr. Anil Kumar, Chairman of Malabar Medical College. In his address, Mr. Anil Kumar highlighted the significance of continuous medical education and appreciated the efforts of the Emergency Medicine Department in initiating such a timely and relevant academic event.

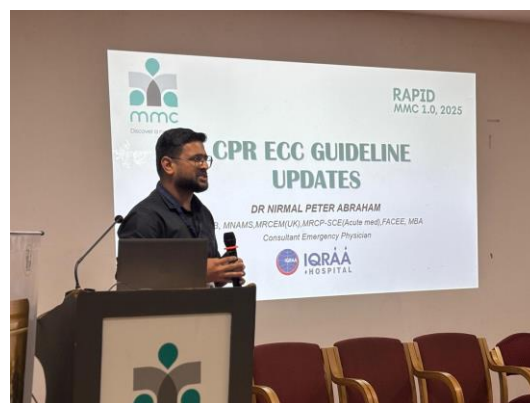

Program Highlights:

The CME was packed with highly informative sessions led by experienced faculty and specialists in Emergency Medicine from across the region. Key sessions included:

Diabetic Emergency	– by Dr. Chandni MD
Organ Donation	– by Dr. Arun V
Emergency Imaging for Residents	– by Dr. Vimal MD
ATLS updates	– by Dr. Akhil SL MD
Ventilator Dynamics	– by Dr. Ajit Bhaskar
Snake Bite Management	– by Dr. Shanavas P
ACLS Update	– by Dr. Nirmal Peter.
Panel Discussions	– by Dr Sajeerv DM, MD, Dr Midhun MD, Dr Harsha MD
Stroke Update	– by Dr Rinoop MD.

These sessions were well-received and provided a strong mix of theoretical knowledge and practical insights essential for PG residents and practicing emergency physicians.

Participation:

The event witnessed active participation from nearly 50 postgraduate students, house surgeons, faculty members, and emergency care professionals. The feedback collected via the official Google Form indicated high levels of satisfaction with the academic quality and organization of the event.

Conclusion:

RAPID MMC 1.0 marked an important milestone in the academic calendar of Malabar Medical College. The Department of Emergency Medicine demonstrated its commitment to academic excellence and capacity-building in emergency care.
