**REPORT ON FAMILY ADOPTION PROGRAM OF 2022 UNDERGRADUATE
STUDENTS (CBME BATCH): TRANSECT WALK AND ROLE PLAY**

Date : 13-02-2025

Time : 8 AM to 12 :30 PM

Place : Ward 36 of Quilandy Municipality (Virunnukandy)

Organized by : Department of Community Medicine, Malabar Medical College and Research Centre, Modakkallur, Calicut

The Department of Community Medicine organized a Family Adoption Program as part of the Competency-Based Medical Education (CBME) curriculum for the 2022 MBBS batch under the guidance of Dr George P Jacob (HOD Department of Community Medicine), Dr Sobin Sunny (Assistant Professor, Department of Community Medicine) and Dr Shakhy Vati (Assistant Professor, Department of Community Medicine) in Ward 36 of Quilandy Municipality. The objective was to enhance students understanding of community health through Transect Walk and Role Play activities.

The students, guided by faculty members, postgraduates and social workers participated in a structured walk through the adopted community. The duration was 1hr. The transect walk was conducted in 5 groups of 20 students each lead by 2 group leaders, covering their household zone to observe Housing conditions, sanitation and waste disposal, water sources and hygiene practices .They also enquired with the villagers regarding the various problems they were facing took notes, and prepared map of their area including factors provided in given check list and finally combined them to make one map of the whole area.

To reinforce their learning, students performed role plays based on real-life scenarios on topic such as – Health hazards due to tobacco smoking and importance of early detection and prevention of cancer. The role plays were engaging and encouraged active participation from

both students and community members. Residents of the area suggested to give more informative sessions based on other health related topics.
